CARRIER Landscapes

Unrivalled experience
and skill set.

At Carrier Landscapes, we handle all aspects of soft landscaping. Whether it's planting daffodils or installing super mature oak trees, turfing everything from courtyards to football pitches, or planting up show homes with select specimen shrubs to large-scale National Forest planting schemes, we've got you covered! Whether we're working from a detailed planting scheme provided by a client's architect or following a simple design brief, we consistently receive fantastic feedback on our projects.

We're fortunate to share our site with our sister company, Sulney Nursery, which supplies us with over 350,000 shrubs and trees each year, ensuring a steady, high-quality supply of plants.

With more than 35 operational teams and our own machinery, we can respond quickly to our customers' needs. Currently, we're actively working on over 120 house-building developments across the Midlands and South Yorkshire, laying more than 400,000 square meters of turf annually.

We also take care of POS (Public Open Space) areas, installing everything from pathways and furniture to fencing and play parks.

Whether you need a small park, any type of sports pitch, or just some beautiful natural landscaping, we're here to help.

Commercial
and project work.

CARRIER Landscapes

At Carrier Landscapes, we handle all your commercial landscaping needs. We understand the importance of working efficiently and meeting strict deadlines, which are often essential for these types of projects. Our team thrives in these high-pressure environments, delivering outstanding results while keeping health and safety at the forefront of everything we do.

We've been involved in numerous regional school building projects and have been commended for completing them within tight budgets and narrow timelines. We can design and propose full school playground areas, working within Local Authority and Planning constraints. If needed, we'll value engineer costs and suggest alternative materials to fit your budget. For a complete package, we also offer fencing and hard landscaping services tailored to your project.

Our work has been recognized with three national awards from BALI for excellence in commercial projects.

Reach out to our Commercial Team, who will be happy to discuss your project requirements!

First impressions
you know how important they are in this industry...

At Carrier Landscapes, that commitment is instilled in all of our grounds maintenance teams. We take great pride in leaving every site in top condition, ensuring excellent curb appeal.

Our teams expertly manage show-houses, stock plots, POS areas, industrial estates, and care homes, keeping these key spaces in pristine condition.

We also specialise in weed and invasive species management.

At Carrier Landscapes, we implement and maintain targeted programs to control invasive species like Japanese Knotweed, Marestail, Giant Hogweed, and many others, ensuring your landscapes remain healthy and well-maintained.

CARRIER Landscapes

Wildlife and habitat work
decreasing our carbon footprint.

At Carrier Landscapes, we collaborate with a local landscape designer to create and install Gold-accredited, RSPB-approved show homes. These eco-friendly spaces feature a variety of elements, including ponds, hibernaculums, wildflower turf, wetland areas, green roof pergolas, hedgehog homes, and bird and bat boxes—all designed to boost biodiversity and reduce our carbon footprint.

We work closely with our clients to help them achieve the necessary biodiversity net gains, ensuring that once the project is completed, nature will continue to thrive on site.

As accredited partners of Wildflower Turf and proud members of the Bumblebee Conservation Trust and Butterfly Conservation, we are deeply committed to supporting sustainable landscaping and wildlife conservation.

We also undertake the following:

- Newt and wildlife handling.
- Transportation and trapping.
- Habitat creation.
- Retention matting installation.
- Construction of ponds and swales.
- Wildflower meadow creation and management.

Health
workplace wellbeing.

At Carrier Landscapes, we take great pride in providing a safe and healthy environment for our employees, visitors, contractors, and the public.

The health, safety, and welfare of our team are our top priorities. We ensure this through the careful implementation, management, and monitoring of effective practices and procedures.

We also measure our health and safety performance annually and have successfully maintained industry-low rates of near misses, minor accidents, and reportable incidents.

HEALTH
PROVIDING A SAFE ENVIRONMENT

Safety
is our responsibility.

At Carrier Landscapes, we are proud members of several key health and safety bodies, including IOSH, CHAS, SMAS, and SSIP. We are also accredited under the Contractors Health and Safety Assessment Scheme (CHAS), having demonstrated full compliance with current health and safety legislation.

Our employees are trained and certified in the following areas:

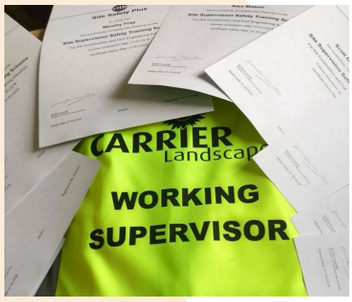

CSCS – Construction Skills Certification Scheme.
SSSTS – Site Supervisors Safety Training Scheme.
CITB – Machine Operation (NPTC).
PA1, PA2 & PA6 – Pesticide Application.
LANTRA – Chainsaw Handling and Tree Felling.

Additionally, we are members of BALI, the British Association of Landscape Industries, reflecting our commitment to excellence in landscaping.

MORRIS

Soft Landscaping Quality Site Audit. Friday 13th May 2022

Continually improving

an ethos of continual improvement.

Quality

At Carrier Landscapes, we constantly challenge ourselves to improve, whether it's enhancing on-site quality or refining our internal systems.

One of the ways we maintain high standards is through regular Quality Reports. These audits provide the Operations team with professional feedback on specific sites, helping us pinpoint areas for improvement in overall quality.

Each report identifies the following: any defects, the relevant trade standards, and the tasks needed to meet both those standards and our clients' expectations.

At the end of the report, a score chart is provided, evaluating the site's overall performance in terms of product quality, installation, impact, and overall appearance.

QUALITY STANDARDS

01664 822 722 info@carrierlandscapes.co.uk www.carrierlandscapes.co.uk

Heavily invested in our employees
it matters to us.

- At Carrier Landscapes, we prioritise investing in our employees' training and ensuring they have the best quality equipment.

Welcome to the Carrier Landscapes Training Centre!

- Every new employee begins with a minimum two-week training program at our dedicated training school.
- Training is led by our experienced training supervisor.
- After completing the initial training, employees receive an additional two weeks of supervised, hands-on training at live sites.
- Once fully trained, employees are ready to join a team and service your sites, equipped with the knowledge and skills they need to get the job done right.

CARRIER Landscapes

We are here to help!

Customers
are our number 1 top priority.

Customer Care

At Carrier Landscapes, your satisfaction is our highest priority. That's why we've established a dedicated 'Customer Care' team to ensure your enquiries are addressed promptly and efficiently.

You can expect quick responses, and we'll schedule a site visit within 7 days. In the event of a dispute, we strive to resolve it within 2 weeks of receiving notification.

We take pride in being one of the few landscaping companies that offers a dedicated, professional service for this crucial aspect of our business.

Additionally, we're more than happy to assist with any Customer Care issues, even if we weren't responsible for the original work.

CARRIER Landscapes

Reducing our carbon footprint

leaving the world a better place for the next generation.

Did you know that at Carrier Landscapes, we plant more than 45,000 trees and whips each year? Over the last five years, we have installed over 200,000 trees and whips.

We also lay 400,000 square meters of turf annually and plant over 300,000 shrubs.

The positive impact we have on the environment is significant, and all of our employees are committed to playing their part in leaving the world a better place for future generations.

Environmental responsibility and sustainability are always at the forefront of our efforts.

ENVIRONMENT

PLAYING OUR PART

01664 822 722 info@carrierlandscapes.co.uk www.carrierlandscapes.co.uk

The changes we make today
will have a positive impact on the future of our planet.

CARRIER Landscapes

Here's what we are doing at Carrier Landscapes

- We recycle all of our plastic waste, including plant pots, resulting in 40 tons being sent to a recycling plant each year.
- All of our green waste is composted, producing 1,200 tons of topsoil annually.
- Our management team is transitioning to electric and hybrid vehicles to reduce emissions.
- A significant portion of our electricity is generated from our own solar panels.
- We are making progress toward using battery-operated tools and exploring the use of electric vans and the necessary infrastructure to support them.

SUSTAINABILITY
AND RECYCLING
